NO. 98

PERSONALS.

Albert Ross is in from Long Valley.
Judge I. B. Marshall went below last night.
Hon. G. W. Baker returned from California on this morning's overland.
Mrs. J. Campbell of Hawthorne, who, for the past week has been visiting Reno friends, returned home this morning.
Lyman Frisbie, a Carson reared boy, who, for the last 14 months has been in California, returned on this morning's express.
Frank Osbiston, who recently arrived from Colorado on his way to California, returned this morning and went to Virginia City.
G. M. Stewart and family arrived from Carson last evening on their way to Sacramento, where they go to locate permanently.
Miss Grace Dewell, who has been lying seriously ill at Carson for some time, was brought to Reno last evening. She is under the care of Dr. Lewis.

What True Merit Will Do.

The unprecedented sale of "Boschee's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles. nov26/87

Truckee News.

The Republican says: Quite a number of ice men have come in from the various camps. They report the ice crop as nearly gathered and all seem satisfied with their winter's work.
Mr. McGlashan shipped yesterday a large box of Sierra butterflies to way down east. Mac has thousands of them left and will continue to distribute them to bug lovers in the east.

The mill men are improving the bad weather to get their mills in good condition. Everything is being done to have them already for business as soon as spring starts in. New machinery and needed repairs are being fully attended to and with the first bluebird's song they will start up with any needed force, hoping for a good season the coming year.

Notice!

Manning & Jaques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do can only protect themselves by employing the best workman, and we recommend the above firm to any who may require such services. A. A. EVANS, dec'dt Supt. Reno Water Co.

Championed by the Queen.

Queen Victoria has shown her interest in Lady Colin Campbell by asking one of the ladies of the Royal household to arrange to meet her at dinner and express the Queen's sympathy and her opinion that the result of the trial ought to be accepted as a complete vindication of Lady Colin. This dinner was given by one of the most popular women in London, whose house is a well-known social headquarters, and the company included a Cabinet Minister and a dozen ladies and gentlemen, almost all able for their position in literature or society. The Queen's connection by marriage with the Argyll family emphasizes her championship of Lady Colin.

THE REV. GEO. H. THAYER, of Bourbon, Ind., says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." Sold by Osburn & Shoemaker.

Wicked Stockton.

Rev. A. C. Bane began Sunday, the 16th instant, at Stockton, a crusade against vice. The sermon was repeated last Sunday and the town's immorality was the subject of all the pulpits at night. There has originated a move to endeavor to influence the Council to arrest many of the evils that are within their power to abolish.

Over-Worked Women.

For "worn-out," "run-down," debilitated school teachers, milliners, seamstresses, housekeepers, and all over-worked women generally, Dr. Pierce's Favorite Prescription is the best of all restorative tonics. It is not a "Cure-all," but admirably fulfills a single-as-of purpose, being a most potent specific for all those chronic weaknesses and diseases peculiar to women. It is a powerful, gentle, as well as astringent, tonic and nerve, and imparts vigor and strength to the whole system. It promptly cures weakness of stomach, indigestion, bloating, weak back, nervous prostration, debility and sleeplessness, in either sex. Favorite Prescription can be sold by all druggists under our five-guarantee. See wrapper around bottle. Price \$1 per bottle or six bottles for \$5.

A large treatise on Diseases of Women, profusely illustrated with colored plates and numerous wood cuts, sent for ten cents in stamps.
Address: World's Dispensary Medical Association, 603 Main Street, Buffalo, N. Y.

Dr. Pierce's "Pleasant Purgative Pellets" cleanse and purify the blood and relieve the digestive organs.

When all other remedies fail, Dr. Sagar's starb Remedy cures.

MISCELLANEOUS.

There is no remedy which can rival Hamburg for the cure of habitual constipation, indigestion and sick-headache. Their action is so prompt and efficient as their taste is pleasant.

DR. FLINT'S HEART REMEDY.

When the Heart, Kidneys and Circulation are in a healthy condition all other ailments are mere "side issues" which readily yield to treatment. Dr. Flint's Heart Remedy cures a specific and direct action on these organs. Descriptive treatise accompanies each bottle, or mailed free. It will repay a personal and prove instructive and interesting.

These Remedies are for sale by all Druggists.

An Opportunity to Secure a Home at Reno!

200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating.

The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address

EDITORIAL NOTES

One of the remarkable things in the February Harper's is the masterly handling of the subject of short stories by the greatest living American novelist, W. D. Howells fills his department, the "Editor's Study," with a consideration of the art of writing short stories, the reasons of its marvelous recent development, and why Americans excel in that branch of literature. The most conspicuous examples of short-story writers are mentioned, with a running comment on their special merits.

The debate in the Landtag yesterday is considered to have been adverse to the government. Prince Bismarck's declaration that the Emperor has absolute power to fix the period for which the Army bill shall be operative is criticized by the opposition press as certain to influence electors in the support of the rights of the Reichstag.

The bill to punish drunkenness in office will doubtless become a law and then the question will be, when is a man drunk. We remember a case where that question was a turning point in the case and one witness swore that he was not drunk until he lay down and had to take hold of the grass to keep from rolling over.

We devote considerable attention to-day to the reduction works. Reno people can afford to read the description, for the minute the wheel moved it added a quarter of a million dollars to values on this flat, and it can never be taken away, but will grow and increase as time rolls on.

Vanderpool, the war correspondent of the Paris Figaro, who served that paper in the Russo-Turkish and other campaigns, and who is at present in New York, received a cablegram, saying that war is imminent and to sail for Paris not later than February 1.

Senator Ingalls warlike speech did not scare England. The London papers say he was talking to the gallery.

Harper's has very good portraits of the new Senators, among them Mr. Stewart of Nevada.

The Senate refuses woman suffrage.

TELEGRAPHIC BRIEVITIES

—Bar silver 102 3/4.
—A New Mexico paper says Jesse James is alive in Arizona.

—Hayes who killed his father in San Francisco is pronounced insane.

—Phyllis Sawyer of Wisconsin was yesterday re-elected to the United States Senate.

—The internal revenue tax on oleomargarine since November 1st has amounted to \$298,100.

—The Senate yesterday appropriated \$150,000 for the construction of a Federal building at Los Angeles, Cal.

—On the convening of the House of Commons, Lord Randolph will explain why he left the British Cabinet.

—Two hundred cars of powder exploded in Ft. Worth, Kansas, yesterday, demolishing 15 cars and killing a brakeman.

—The Michigan Assembly has passed a bill prohibiting the employment of Pinkerton men by the Sheriff of that State.

—Senator Boyle's bill, accepting the cabinet of rare oculus and curiosities offered the State of Nevada by the Pacific Coast Pioneers of Storey county passed the Senate to-day.

—A party of Poles, on their way to Hoboken to take the steamer for home, were to-day brutally assaulted by the coal-strikers, who mistook them for non-union men.

—Two boys were tortured by detectives into confessing that they had robbed and killed a man years ago. Now a priest swears that the guilty man has confessed to him and asks for the boys to be pardoned.

—The collection of internal revenue during the first six months of the fiscal year ended June 30, 1886, was \$57,503,553, being a decrease of \$1,054,240, as compared with the corresponding period of the previous fiscal year.

TO-DAY'S NEWS.

Costa Rica and Nicaragua are to Arbitrate.

A SUFFRAGE MEETING

A Stringent Law Passed by the Michigan Legislature.

THE SILVER CIRCULATION

Another Divorce Granted by an English Court.

Inter-State Commerce and Fisheries Bills.

WASHINGTON, January 26.
The President received the Inter-State Commerce bill last evening and has referred it to the Attorney General for examination. It is not likely that the President will act upon the bill much before the expiration of the ten days period. A number of applications have already been received for appointment on the commission provided for in the bill but the President has not as yet given that particular subject any serious consideration.

Chairman Belmont of the House committee on Foreign Affairs, says the fishing bill adopted by the Senate will probably be considered at a meeting of the House committee tomorrow. Although the committee was authorized to report the matter back to the House at any time, Belmont does not believe it will be ready to report before next week, and intimates that the bill might be amended by the committee before being presented to the House.

Persistent Safe Robbers.

RICHMOND, Texas, January 26.
Between 2 and 3 o'clock yesterday morning, three masked men entered the Gulf, Colorado and Santa Fe railroad depot, about one mile from the business portion of the town, and at the point of a pistol compelled the watchman, Gregory, to open the door leading into the inner office. They then attempted to drill through the safe in the freight agent's office. Failing, two of them went to Station Agent Hagen's house, and forced him to go to the station and open the safe. They secured \$1,500 in money and escaped.

Decrease in Silver Circulation and the New Certificates.

WASHINGTON, January 26.
The circulation of standard silver dollars is steadily decreasing. The amount outstanding to-day—\$58,634,267—is over \$2,000,000 less than the amount outstanding on the 1st instant. It is expected that the new \$5 silver certificates will be ready for issue next week. The first impressions have already been received at the Treasury Department. The new notes contain a vignette of General Grant on the face, and fac similes of five silver dollars in a group on the back.

Good Legislation.

LANSING, Mich., January 26.
Breen's bill for the suppression of vice in the upper peninsula, passed the House unanimously yesterday morning. The disclosures of the dance-house horrors induced the House to give the law immediate effect. Its provisions are sweeping and apply to disreputable houses throughout the State. All persons keeping or resorting to such are subject to an imprisonment for five years in the State Prison, or \$1,000 fine, or both. This is five times the former penalty.

Woman Suffrage.

WASHINGTON, January 26.
The National Woman's Suffrage Association met here yesterday for its 19th annual convention. Miss Susan B. Anthony delivered the opening address, and at its conclusion read a letter from Elizabeth Cady Stanton, President of the Association, who is now in Europe. Several reports were read and accepted, after which Mrs. Harriett R. Shattuck spoke upon the subject of the "Women who ask and the women who object."

To Be Arbitrated.

WASHINGTON, January 26.
During the past few days intelligence has been received that a Convention has been signed by Nicaragua and Costa Rica for an arbitration of their boundary dispute, by the President of the United States. This Convention only awaits ratification and exchange, and is to be a full and final disposition of the question of jurisdiction over a part of the proposed canal route.

A Fatal Quarrel.

CHICAGO, January 26.
John Watts, a character well known about the shipping docks, was murdered in a drinking resort kept by George Wilson at the corner of Clark and South Water street, this morning.

Watts had been at a dance at a ball near Wilson's saloon, during the night, and had had a quarrel with the man who murdered him, about a woman. Watts entered Wilson's place, accompanied by another man and two women and went into the wine-room in the rear of the saloon. Shortly afterward the man he had assaulted at the ball entered the place, and, after listening at the door of the wine-room, entered, and without a word of warning, drove a long dirk-knife into Watts' heart. The murderer escaped and has not been arrested.

Returning to Work.

JERSEY CITY, January 26.
A committee of Lorillard strikers yesterday demanded the discharge of those of their number who had returned to work, as the price of declaring the strike off. This was refused, and the strikers continued to return to work in small parties yesterday.

FOREIGN DISPATCHES

Cholera in the South.

PANAMA, January 25.
Great excitement prevails throughout Chilli at the appearance of cholera on its boundaries. Reports speak of bodies unburied, of houses abandoned and children attacked by the disease and left to perish on the roadside by their relations, who are fleeing south for safety.

The Argentine Government has all along endeavored to suppress knowledge of the true state of affairs, and official telegrams have differed widely from those sent to the Chilian press and private individuals.

Lost at Sea.

HALIFAX, January 26.
A terrific gale prevailed on the coast Monday night and the wind blew 40 miles an hour. The schooner C. Graham from Bermuda had just arrived on the coast and was driven ashore on Shad Bay shoals and was dashed to pieces. She had a crew of six men, and possibly some passengers all of whom were lost. The shore is strewn with debris. She was commanded by Captain Coleridge. It is believed there were other disasters along the coast.

Peaceful Declarations.

BERLIN, January 26.
The North German Gazette confirms the peaceful declarations made by M. Goblet, the French Premier. The Gazette pronounces the declaration of the London Daily News, that Germany intended to demand certain explanations from the French regarding the movement of troops on the frontier, as a pure invention.

The Bulgarian Question.

PESTH, January 26.
It is semi-officially stated that the Austrian Government concurs as to the necessity of a new Sobranje or new regency, before the election of a Prince to the Bulgarian throne. All the powers with the exception of England, are now in unison on this subject.

Divorced for Cause.

LONDON, January 26.
A decree of divorce was to-day granted against Edward Solomon, the composer, and the husband of Lillian Russell, in favor of Lilly Gray, his first wife, on the ground of adultery with Lillian Russell. The custody of Lilly Gray's child was granted to her.

Massowah Attacked.

SAUKIM, January 26.
It is reported that a small force of Abyssinians has attacked Massowah, and has been repulsed with a loss of 200 killed. Five Italians were killed.

WESTERN DISPATCHES

Sale of a Telegraph Line.

SAN FRANCISCO, January 26.
John W. Mackay's Postal Telegraph Company has purchased the Bay and Coast Telegraph line belonging to the South Pacific Coast Railroad Company which runs from San Francisco to Santa Cruz. Price not mentioned.

Earthquake Shock.

VISALIA, Cal., January 26.
A slight shock of earthquake occurred at 10 minutes past 9 last night. The oscillation was from west to east.

—The New Jersey Democrats cannot get Assemblyman Baird to attend their Senatorial caucus, and without him they cannot elect their nominee for Senator.

—Judge Leonard of the Nevada Supreme Court, and wife, last night entertained at Carson, a large number of married people, and will soon give their unmarried friends the same kind of a reception.

To-Day's Movings.

The building erected by the W. C. T. U., has been purchased by Mr. Sanders and is to-day being moved onto his lot further down the street. The Justice Court goes with the building.

Messrs. Pinniger and Herz are moving their goods to the store lately occupied by Isaac Barnett.

Hose Meeting.

The postponed meeting of Fearless Hose Co. No. 1 will convene this evening at 9 o'clock at engine house No. 1. By order,
J. T. TOMPKIN, Foreman.
L. J. COHN, Secretary.

Lapanta Gold Ore.

James A. Yerrington, Superintendent of a rich gold mine in Lapanta district, Esmeralda county, arrived in town yesterday with two cars of gold ore, the assay value of which averages a little over \$150 per ton, which he is having worked at the Reno Reduction works. Should the result prove satisfactory, large shipments of the same kind of ore will continue to be received from this remarkable mining district. Eminent mining experts who have examined Lapanta district say that its formation upsets all the theories of the books, the formation being unlike anything before discovered.

SKIN & SCALP

Cleansed, Purified and Beautified by the Cuticura Remedies.

FOR CLEANING THE SKIN AND Scalp of Disfiguring Tumors, for itching, burning and inflammation, for curing the first symptoms of Eczema, Psoriasis, Milk Crust, scaly Head, Scrofula, and other inherited Skin and Blood Diseases, CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite skin beautifier, externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally, are infallible.

A COMPLETE CURE.

I have suffered all my life with skin diseases of different kinds, and have never found a permanent relief, until by the advice of a lady friend, I used your valuable CUTICURA REMEDIES. I gave them a thorough trial, using six bottles of the CUTICURA RESOLVENT, two boxes of CUTICURA and several cakes of CUTICURA SOAP, and the result was just what I had been told it would be—a complete cure.

WORKING WELL.

The Reno Reduction Works in Operation.

BRINGING BULLION BARS

A Remarkable Piece of Head-work in Engineering.

So quietly and unostentatiously has the work of construction been prosecuted since the formation of a company to build reduction works in Reno, that very few people understand the real size and importance of the institution. To-day, however, after a very few months time has elapsed, the ore is actually being worked and

THE SHINING SILVER

Is being shipped away. One remarkable feature of the works is that not a plan has been drawn on paper and not a stake has been stuck by a surveyor. A preliminary line was run by Mr. Bridges to establish the amount of fall that could be obtained, but after that the only chart to work by was in Mr. Howell's head. He marked the places for the wheel, the tail race, the building, furnaces and battery with all the shafts, pulleys, belting and everything, and not one was moved a quarter of an inch from the mark, and everything works smoothly and correctly without a jar or a creak. No less remarkable is the fact that Mr. Howell's estimates of total cost have come out exactly. He has put in 10 stamps instead of five, and four pans instead of two, and the whole outlay is just \$1,500 more than he asked for in the first place. It is difficult to describe the workings of large and complicated machinery, but enough can be said to show even the layman the modus operandi of divorcing the precious metals from the dull company it has kept so long. The ore is carried to the doors on the north side of the building in cars on a side track built from the Central Pacific road. This brings them on a level with the floor of the ore room 30x100 feet, over which there is a strong loft and below which two stories of the works stand on benches towards the river. On the ore floor the rock is thrown into the breaker from which a bucket elevator carries it up to the loft. It is then sampled and the sample goes back to the ore room, and through a small rock breaker and into a grinder, after which it is taken to

THE ASSAY OFFICE.

Here Mr. Carey, who has been associated with Mr. Howell for many years, is considered to be more directly in charge. He has the furnace and scales in a small wooden building apart from the main works, where the took-keeping is also done. The main body of ore after the sample has been obtained is dropped from the upper ore loft into a self-feeding hopper above the battery. Here it is crushed by the 10 stamps working on the dry process and is carried along to the elevator which raises it to the self-feeding bin over a 60-inch Howell telescope-cylinder furnace which is the largest size made. This furnace is, next to the battery the most striking feature (no pun) of the works. It is a huge iron cylinder, the upper end of which enters a brick flue and the lower a great brick fire box. The

VAST IRON CYLINDER

Rests in drivers turned by machinery that keeps it revolving at the rate of eight revolutions a minute. The cylinder is slightly lowered at the big end so that as it turns slowly around and around the powdered ore works along toward the dumping place and is released by the dropping of two iron, folding doors operated by chain gear into an iron car which is run out on a track and carried by a derrick to be emptied on the ore pile to cool. All this is on the middle bench which forms the second story, the ore floor being the upper one, the second and the pan room the lower one. An iron door can be raised on the side of the furnace right over the fire so one can look right through the cylinder and see the fine particles carried up the sides of the slowly turning cylinder and dropping in a constant shower of red hot snow through the intense heat that passes from the furnace through its whole length and out into the flue at the other end. The cylinder has a capacity of at least 30 tons in 24 hours, and is able to do double the work of a ten-stamp mill. There is about 300 pounds in at any one time, and it is exposed for 45 minutes in passing. The feed can be changed so it will be a longer or shorter time, and the different kinds can be mixed to suit each other. The Howell furnace has been in use for 10 years and is an invention of the President of these works.

NOTHING COMPARES WITH IT

As a chloridizer and oxydizer. It does the work of 10 stamps with two cords of wood and one man's time. It is also used as a dryer to take the moisture from the ore before it goes to the stamps. The fumes from the furnace pass out into a brick vault outside the building, which is divided into five chambers. If stretched out they would be 80 feet long. The vault is a solid brick structure 60x20 feet with iron slide doors through which the accumulations are removed. The fumes from the high stack over

the dust chamber have been largely relieved of their load in passing, but still contain antimony, sulphur and zinc. The thick, white smoke is the heaviest in sulphur. The roasted ore goes into the pans on the same floor and thence to two settlers on the next floor below. Here there is an engine and boiler, pumps, the retorts, etc. The 30-ton water jacket furnace and Baker blower are being erected on this floor and in time

A COPPER SMELTER

Will be set up alongside of it. About 550 bushels of charcoal will be used every 24 hours unless it is found to be too light. If it is it will be mixed with coke. The company are impounding the tailings so that the river is hardly stained. The wires for the electric light are strung and the same wheel will give power to the dynamo that runs the works. This is a 50-inch, Leffel, double, turbine wheel made in Springfield, Ohio, which Mr. Howell thinks is undoubtedly the best wheel made for heavy work. It is being caged in heavy wire to keep out float ice. The 112 horsepower comes from the river through a ditch 900 feet long with a dam 110 feet long and six feet high. It can be raised a foot and the whole river turned in and the power quadrupled. It speaks volumes for the future to see such a splendid power obtained by a ditch only 900 feet long. It will, in time, line the Truckee with factories and make a great manufacturing city here. It is cheaper, safer and swifter than even natural gas. The ore is being worked in an entirely satisfactory manner. It is coming in double the quantity that anyone expected and will continue to increase as fast as the works can handle it.

VIRGINIA CITY

Has a great deal of base ore which will come here. Mr. Howell could get a good deal of ore to mill if he had more stamps. At \$6 a ton, the price paid on the Carson river, it would pay well. It would be necessary to name almost every town on the C. & C. and most of those on the C. P. as far as Elko besides Eureka and Austin on the east, Grays Valley and Ophir on the west and Cedarville and Cottonwood on the north, to tell where the ore is coming from. The company has got out a schedule of rates which is as follows:

For milling ores they pay 90 per cent. of the gold and silver in ores assaying 300 ounces and under.

For ores assaying from 300 to 500 ounces per ton 95 per cent., and ores assaying 500 ounces and upward 95 per cent.

Milling charges \$14 per ton. Silver at the current rate of discount.

For smelting ores they pay 90 per cent. of the gold, silver and lead on ores carrying 50 per cent. lead and under, and charge \$14 per ton for reduction.

For ores carrying over 50 per cent. lead, they pay the same percentages of gold, silver and lead as above, and charge \$10 per ton for working. For large lots still lower rates will be made.

Ores sampled and paid for as soon as received, and sacks returned to the shipper. There is no charge for sampling and assaying. Railroad rates from any point are furnished on application, and are very low.

The next thing needed is more stamps for free-milling ores and well-equipped refining works to separate the silver, gold and lead. The capital might easily be increased to \$100,000 right away and may be twice that in a few years. In time, chemical works to save the zinc, sulphuric acid, etc., will pay.

Wonderful Cures.

W. D. Hoyt & Co., wholesale and retail druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years; have never handled remedies that sell as well, or give such universal satisfaction. There have been more wonderful cures effected by these medicines in this city. Several cases of pronounced consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by S. J. Hodgkinson & Co.

A Malicious Report.

The Winnemucca Silver State says the report of the suicide at Tuscarora, of Miss Sarah Arndale, proves to be a malicious falsehood. The young lady is reported in good health.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists, J. J. Mack & Co., proprietors.

MISCELLANEOUS.

A Safeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other remedy so effective as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is today saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease, susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

Ayer's Cherry Pectoral,

Harper's Young People.

AN ILLUSTRATED WEEKLY.

HARPER'S YOUNG PEOPLE has been called "the model of what a periodical for young readers ought to be," and the justice of this commendation is amply sustained by the large circulation it has attained both at home and in Great Britain. This success has been reached by methods that must commend themselves to the parents, no less than the tastes of the children—namely, by an earnest and well sustained effort to provide the best and most attractive reading for young people at a low price. The illustrations are copious and of a conspicuously high standard of excellence.

An epitome of everything that is attractive and desirable in juvenile literature.—Boston Courier.

Toughened Glass.

The following explanation is given as a reason why so little is now heard of tempered or toughened glass for domestic purposes, although a year or two back such glass was much advertised and its praises constantly sung. We understand, says the *Mining and Scientific Press*, that the reason why it has at present disappeared from public notice is that its efficiency does not last. When fresh from the factory it can be dropped from a height to the floor and knocked about with impunity. But soon a gradual and understood change occurs in its constitution, for after a short time it will fly to pieces without any apparent cause. It is said, too, that unscrupulous traders who have a stock of the faulty material are selling it as ordinary glass. Those, therefore, who experience unaccountable breakages will know to what cause to attribute them. A really unbreakable glass would be such a boon that it is to be hoped that further experiment will soon show how it can be manufactured.

Ladies

In delicate health, and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken, and more beneficial in effect than any other remedy. It acts promptly yet gently on the bowels, kidneys, liver, and stomach, and does not sicken or debilitate. For sale by Wm. Plummer, Reno, Nevada.

The Equal in Ability

The Salt Lake *Democrat* says: The New York press is greatly exercised over the fact that Nevada has a representation in the United States Senate equal to that of the State of New York. Let the metropolitan bohemians comfort themselves with the fact that though Nevada's Senators may count less constituents at their backs, yet as a whole, in brains and personal influence, they have been fully equal to the New York Senators. Nevada, through her Senators, has exercised a greater influence in the councils and upon the silver and mining policy of the nation than has New York. Let the galled jade wince, Nevada's withers are unprung.

A Curious Relic.

The *Virginia Chronicle* of the 25th instant has the following: Dr. P. T. Kirby to-day celebrated his 58th birthday with his many friends. He has a curious and unique keepsake which showed them. It is a half dollar of 1829 with the scroll and 13 stars, and the words "half-dollar or 50 cents" cut in the unrolled edge. On the face is engraved P. T. Kirby, Palmyra, N. Y., January 25. He has had it in his possession as far back as his memory goes. When he was taken prisoner by the Confederates during the war, this coin and a picture of his wife was all he was let retain. Naturally he prizes the relic very highly.

When baby was sick, we gave her Castoria, When she was a child she cried for Castoria, When she became a girl, she clung to Castoria, When she had children, she gave them Castoria.

Made it Work.

"Hey, there! You've got my umbrella. I've found it at last, have I?" exclaimed a large sized man in a loud and menacing tone, as he stood in a doorway in one of the principal streets one rainy morning recently while a number of pedestrians were hurrying past. A dozen men turned at once on hearing him and came towards him, holding out their umbrellas and making profuse apologies. With the air of an injured individual, the large man selected a fine silk one from among the number, and the procession moved on again.

How Hugs Are Graded.

An exchange says: Several of our young ladies have formed a hugging society for the amusement of the young men during the long winter evenings in general, proceeds to go for the benefit of the poor. For increasing the society's fund, the prices for a straight up and down hug are, girls under 16 years, 20 cents for each hug of two minutes duration, from 17 to 25 years, 75 cents; school warms 40 cents; another man's wife \$1, widows, according to looks, 10 cents to \$2, old maids three cents or two for a nickel and no limit on time. Ministers are not charged and editors pay in advertising.

Summons.

IN THE DISTRICT COURT OF THE Seventh Judicial District of the State of Nevada, in and for the county of Washoe.

The State of Nevada sends to Robert Heene greeting: You are required to appear in an action commenced against you as defendant, by the Central Pacific Railroad Company, as plaintiff, in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment against you, Hold, Heene, defendant, for the sum of four hundred and fifty and 50/100 (450 50/100) dollars for fourth, fifth, sixth and seventh years interest on the remainder of purchase money arising out of a certain contract with said company, plaintiff, to purchase the E. & of the S.E. 1/4 of sec. 15, T. 19, N. 19 E., M. D. Band 11, Washoe county, Nevada, containing 80 acres, said contract entered into Sept. 13, 1880; that you be required to pay said sum within 30 days from receipt of judgment, and in case of failure to pay within said 30 days, that the said contract be declared null and void, and that you, defendant, and all persons holding under said contract be forever barred and foreclosed of all right to conveyance thereunder, and that the plaintiff be let into the possession of said premises and for costs herein, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court of Reno, in said County. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, T. V. Julien, have hereunto set my hand and affixed the seal of said Court, this 9th day of November, A. D. 1886. T. V. JULIEN, Clerk of the District Court of the Seventh Judicial District, Nevada, in and for Washoe County. Jos. D. Redding, Attorney for plaintiff.
